

MANAGEMENT COMMITTEE MEETING

Belgrade, April 1st 2016

José Matos - Chair

Good afternoon to everybody!

Acknowledgments to Local Organizers and to Metropole Palace Hotel (Belgrade, SB).

Rade Hajdin (UBelgrade)

Snezana Masovic (UBelgrade)

Nikola Tanasic (UBelgrade)

<u>Tour de Table / Introduction of new MC members</u>. Those MC members who were not in Geneva, please stand-up and say your first and last name, affiliation and in what WG are you involved.

Establishment of Quorum

Reimbursement Policies

- ➤ In order to be reimbursed you need to receive the e-COST invitation by e-mail and accept it in due time. Otherwise you cannot be reimbursed.
- ➤ Then, you need to fill a reimbursement form in e-COST platform. After filling the form, you will have to print, sign and send it to the COST Action TU 1406 secretary (Ms Lara Leite).
- ➤ All **originals invoice/ticket** must be sent to the secretary by e-mail or, in case of some original tickets without e-version, mailed to University of Minho, Grant Holder (Ms. Lara Leite), within **10 calendar days**.
- ➤ Use the following address for sending the original invoices/tickets:

University of Minho
Att/ Ms. Lara Leite
Department of Civil Engineering
Campus Azurém
4800-058 Guimarães
PORTUGAL

Reimburcement Policies

- Eligibility for reimbursement: Provide your signature in such attendance list, or you are not eligibility for reimbursement.
- ➤ <u>Accommodation:</u> Flat rate: 120€ /per night + The number of nights to be reimbursed are equal to the attending meeting days plus one.
- <u>Meals:</u> Flat rate: 20€ /per person/per eligible meal + Meals provided by LOS are deducted from the number of meals to be reimbursed.
- Airplane, Train or Bus, Car and Ferry: Maximum: EUR 1 200 + Only economy class tickets are eligible for reimbursement + In the applicable case, the participants must submit as a supporting document the original ticket and view trip mentioning the name of the passenger, the price, dates of travel, departure and arrival times and the booking class (essentially the full itinerary of the trip) + For Train or Bus, business and economy class tickets are eligible for reimbursement; and supplements for fast trains and sleepers are eligible expenses + Car travel is limited to a maximum distance of 2 000 km and is reimbursed at EUR 0.20 per km.
- ➤ <u>Local transport expenses:</u> Include any transport costs (including shuttle, buses, trains, metro, tramway, taxis, car costs (up to 2000 km) and parking costs), incurred on the normal route between home and local of event + If the claimed amount is less than EUR 25, no tickets are required + If the claimed amount exceeds EUR 25, receipts justifying the total amount claimed must be provided.

The objective of COST is to support networking in a topic of excellence ...

Some REMARKS:

- (i) COST do not support any company promoting activities;
- (ii) In order to be reimbursed you need to <u>receive an e-COST invitation by email and accept it within two weeks</u>. There exist two hypothesis:
 - You are a MC member and you are automatically invited for MC meeting;
 - You are a WG member and you are considered eligible, according to the criteria previously established by the Core Group;
- (iii) In case you do not accept the e-COST invitation, your invitation will be automatically cancelled and you will not receive another invitation for the same meeting;
- (iv) For MC members, if you cannot attend, and want to be replaced by your MC substitute, you should inform the Grant Holder (Ms. Lara Leite) about this by email, in due time as time does not stop (2 weeks).

2. ADOPTION of AGENDA

- 1. Welcome
- 2. Adoption of agenda
- 3. Approval of minutes and matters arising of last meeting
- 4. Update from the Action Chair
 - a. Status of Action, including participating countries
 - b. Action budget status
 - c. STSM status and new applications
- 5. Promotion of gender balance and Early Stage Researchers (ESR)
- 6. Update from the Grant Holder
- 7. Update from the COST Association
- 8. Follow-up of MoU objectives
 - a. Progress report of working groups

- 9. Scientific planning
 - a. Scientific strategy
 - b. Action Budget Planning
 - Long-term planning (including anticipated locations and dates of future activities)
 - d. Dissemination planning (Publications and outreach activities)
- 10. Requests for new members
- Non-COST applications to the Action
- 12. Any Other Business (AOB)
- 13. Location and date of next meeting
- 14. Summary of MC decisions
- 15. Closing

3. APPROVAL OF MINUTES and MATTERS arising of LAST MEETING

Geneva meeting minutes were approved by e-voting procedure.
 They can be uploaded in the following link:

http://www.tu1406.eu/wp-content/uploads/2016/01/TU1406_GEN_MInutes_MC_22_09_2015.pdf

Matters arising of last meeting ...

Minutes of 2nd MC Meeting

 Circle:
 MC Members

 Date:
 22-09-2015

 Time:
 13:30 CET

Location: Room 5 CICG, Geneva
Participants: Listed in Appendix A

Minutes of 2nd MC Meeting - BridgeSpec - 22.09.2015

Topic 1 - Opening by Prof. Dr. José Matos, Chair of the Action (13:30 CET)

- Tour de Table and Establishment of Quorum
- Short Overview of Reimbursement Policies
- Adoption of the Agenda
- Approval of minutes and matters arising of last meeting

3. APPROVAL OF MINUTES and MATTERS arising of LAST MEETING

- An Advisory Board from Industry was constituted with the following five colleagues: Poul Linneberg (DK); Niels Peter Hoj (CH); Joao Amado (PT); Giel Klanker (NL); and Ralph Holst (GE). This board will provide recommendations about liaison between COST Action TU 1406 results and industry.
- An email asking for videos contribution from each member was sent and some videos were received with high quality. Then, a selection procedure was developed by WG6 – Dissemination, in order to merge the videos into a final video of 5 minutes.
- An email asking for possible liaisons with other groups was sent but only few MC members answered such email. It will be resent during the month of April 2016 by Ms. Lara Leite, and the objective is to identify potential liaisons and who will be our contact person.

3. APPROVAL OF MINUTES and MATTERS arising of LAST MEETING

- An email was sent to all MC members asking for contributions in the scope of COST TU 1406. All these contributions will be indicated in the COST TU 1406 report, but it is important not to forget the acknowledgment to COST TU 1406.
 This email will be again sent on April 2016 by Ms. Lara Leite.
- An email asking for interests and participations in research projects was sent to MC members. Now the objective of the Research & Development Subgroup is to identify potential calls and inform those who replied about them so that some joint-applications can be prepared. However, there are some restrictions with respect to the COST TU 1406 support letter.
- It is highly recommended that all MC members who are actively participating in ongoing research projects (national or international), related to this Action, or who just receive the notification that their projects were accepted for funding, inform the R&D subgroup leader and the Action Chair, so that their projects can be disseminated at the COST Action website. In order to do so, please send a resume and a representative image of the project.

CSO Approval: 13-11-2014

Start of the Action: 16-04-2015

End of Action: 15-04-2019

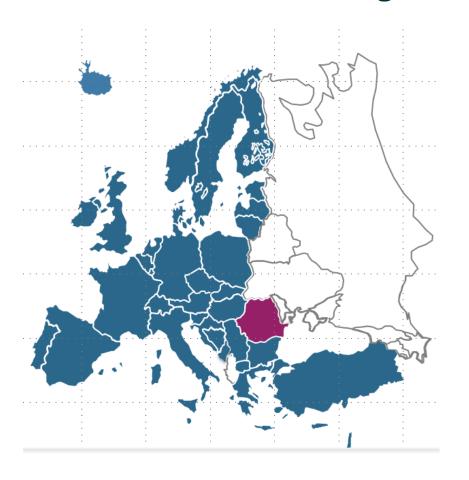

Total Number of COST countries accepting MoU: 36

Total Number of COST countries intending to accept MoU: 0

4. UPDATE FROM ACTION CHAIR

Status of Action including Participating Countries

- Action represented countries
- Missing Countries
 - Romania

The main objective of the Action is to

develop a guideline for the establishment of QC plans in roadway bridges

by integrating the most recent knowledge on performance assessment procedures with the adoption of specific goals. This guideline will focus on bridge maintenance and life-cycle performance at two levels: (i) performance indicators, (ii) performance goals.

Developing a state-of-art report;

Creation of a database;

Incorporation of sustainable indicators.

- (i) Systematize knowledge on QC plans for bridges, which will help to achieve a state-of-art report that includes performance indicators and respective goals;
- (ii) Collect and contribute to up-to-date **knowledge on performance indicators**, **including technical**, **environmental**, **economic and social indicators**;
 - (iii) Establish a wide set of quality specifications through the definition of performance goals, aiming to assure an expected performance level;
 - (iv) Develop detailed examples for practicing engineers on the assessment of performance indicators as well as in the establishment of performance goals, to be integrated in the developed guideline;

(v) Create a database from COST countries with **performance indicator values** and respective goals, that can be useful for future purposes;

(vi) Develop a **webpage with information about the Action and its participants**, as well as, video-streaming from presentations at training schools, workshops and conferences, e-lectures, **written material (e.g. technical reports)**, etc.;

(vii) Support the development of technical/scientific committees;

(viii) Disseminate activities, such as **Short-Term Scientific Missions (STSM)**, training schools and other teaching activities (e.g. e-lectures), for practicing engineers and researchers, **regular workshops**, a conference and **special sessions at international conferences**.

Milestone				M1				M2		МЗ				M4		M5

M1 – Report on performance indicators

- General description
- Assessment methods (e.g. visual inspection, non-destructive tests, monitoring systems, etc.)
- Frequency of assessment
- Obtained values
- General recommendations
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Workshop at the end of this task (Belgrade, Serbia)

M2 – Report on performance goals

- Description of technical, environmental, economic and social factors
- Goals computation methods
- Frequency assessment
- General recommendations
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Workshop/Training School at the end of this task

Activity/Months	3	6	9	12	15	18	21	24	27	30	33	36	39	42	45	48
Milestone				M1				M2		М3				M4		M5

M3 – Recommendations for the establishment of a QC plan

- Bayesian nets or other heuristic rules (used worldwide)
- Establishment of a procedure for the definition of QC plan for each individual bridge/component
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Workshop/Training School at the end of year 3

M4 – Preparation of a database from benchmarking

- Obtained results will validate the outcomes of WG1, WG2 and WG3
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Conference/Training School at the end of year 4

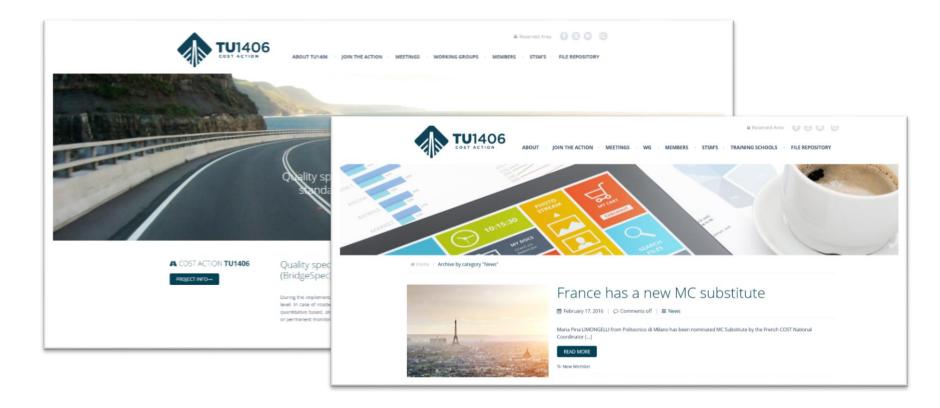

M5 - Guideline/recommendations

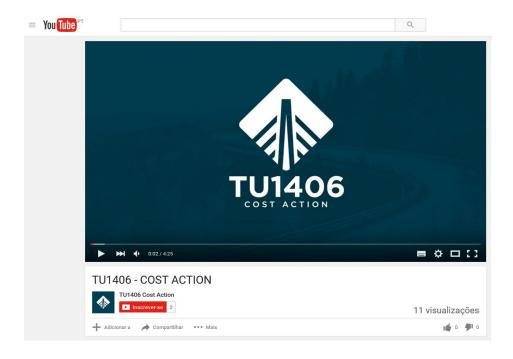

- Development of a new guideline for the establishment of QC plans
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Conference/Training School at the end of this task

4. UPDATE FROM ACTION CHAIR

Action budget status

Initially Predicted

Description	Value
A – COST Networking Tools	
A.1 – Meetings	128.880,00 €
A.2 – Training Schools	0,00€
A.3 – Short Term Scientific Missions (STSM)	10.000,00€
A.4 – Dissemination	8.460,00 €
A.5 – OERSA	486,00€
B – Total Science Expenditure (sum A.1-A.5)	147.826,00 €
C – FSAC (máx. 15% of B)	22.174,00 €
D – Total Expenditure (B + C)	170.000,00€

4. UPDATE FROM ACTION CHAIR Action budget status

Situation Point – Dispended Budget

Description	Value
A – COST Networking Tools	
A.1 – Meetings	61.532,21 €
A.2 – Training Schools	0,00€
A.3 – Short Term Scientific Missions (STSM)	10.920,00 €
A.4 – Dissemination	7.750,00 €
A.5 – OERSA	0,00€
B – Total Science Expenditure (sum A.1-A.5)	80.202,21 €
C - FSAC (máx. 15% of B)	12.030,33 €
D – Total Expenditure (B + C)	92.232,54 €

4. UPDATE FROM ACTION CHAIR

	67.347,79 € 0,00 € -920,00 € 710,00 € 486,00 € 67.137,79 € 10.070,67 €				

Belgrade, SB WG1 Technical (100 Report copies; 50 pages)

Meeting

The core group will meet, after Belgrade meeting, with more reliable data, in order to close the Grant Period, and will inform the MC about any budget reallocation.

4. UPDATE FROM ACTION CHAIR STSM status and new applications

STSM Applicant	Ciarán Hanley (IR,M)						
Home Institution	University College Cork, Dynamical Systems and Risk Laboratory, Civil, Structural and Environmental Engineering, School of Engineering, College Road, Cork, Ireland						
Host Institution	University of Minho, Porto, Portugal						
STSM proposed start date	07/03/2016 - 28/03/2016						
STSM proposed duration	21 days						
Basic information	 Main subject: Management of bridge structures on national road networks in Ireland and Portugal; Work plan: Carry out a review of data and data-driven bridge maintenance management methods in Ireland and Portugal; Define knowledge gaps and opportunities using these data from two countries in terms of more efficient bridge maintenance management; Define a single piece of work, appropriate methodology and patterns to complete in 2016 using the data from two countries as a demonstration of the method. 						

4. UPDATE FROM ACTION CHAIR STSM status and new applications

STSM Applicant	João Fernandes (PT,M)
Home Institution	University of Minho, Portugal
Host Institution	Universitat Politècnica de Catalunya, Department of Civil and Environmental Engineering, Barcelona
STSM proposed start date	29/02/2016 - 1/04/2016
STSM proposed duration	33 days
Basic information	 Main subject: Concept of robustness as a bridge performance indicator for the goal of availability; Work plan: Obtaining of the reliability index of the bridge and then compare with the threshold values of the standards; Obtaining the robustness index; Prediction analysis using techniques as Markov Chains, Hidden Markov Chains or Artificial Intelligence techniques.

4. UPDATE FROM ACTION CHAIR STSM status and new applications

STSM Applicant	Nina Serdar (NO,F)
Home Institution	University of Montenegro, Faculty of Civil Engineering, Cetinjski put bb, 81000 Podgorica
Host Institution	University of Naples Federico II, Corso Umberto I, 40, 80138 Napoli, Italy
STSM proposed start date	22/03/2016 – 29/03/2016
STSM proposed duration	7 days
Basic information	 Main subject: Existing codes, regulations and practice in the field of using non-destructive techniques in bridge condition assessment; Work plan: Gathering information about bridge structural condition assessment and performance prediction models for determine future bridge serviceability and safety condition; Principal technical performance indicators of bridge structure that are in use in Italian regulations and practice; Processing and interpretation of results of non-destructive techniques for determine technical indicators; Bridge maintenance strategies, maintenance planning and criteria for starting maintenance action based on calculated performance indicators.

5. PROMOTION OF GENDER BALANCE AND EARLY STAGE REASEARCHERS (ESR)

COST Policies geographica coverage early career gender investigators excellence inclusiveness COST **Action** SME international industry cooperation cooperation

5. PROMOTION OF GENDER BALANCE AND EARLY STAGE REASEARCHERS (ESR)

Excellence and Inclusiveness

 Gender Balance – An ESR female already used a STSM; Increase the number of female WG members; Involve more female for the next Workshop (LOS); Invite a female to be a Keynote in the next Workshop (LOS).

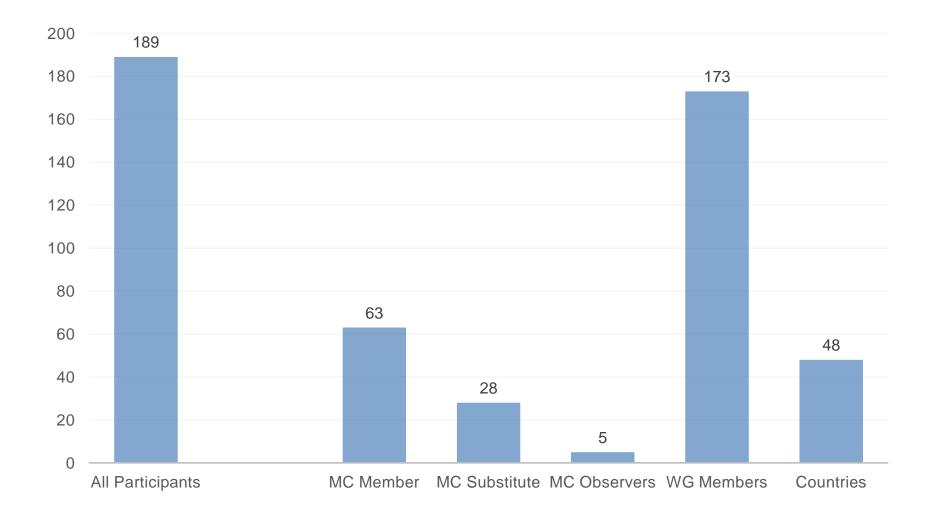

SME & Industry Cooperation

Involve more SME & Industry for the next Workshop (LOS); Invite a SME & Industry to be a keynote in the next Workshop (LOS); Involvement of SME & Industry in joint applications to research projects.

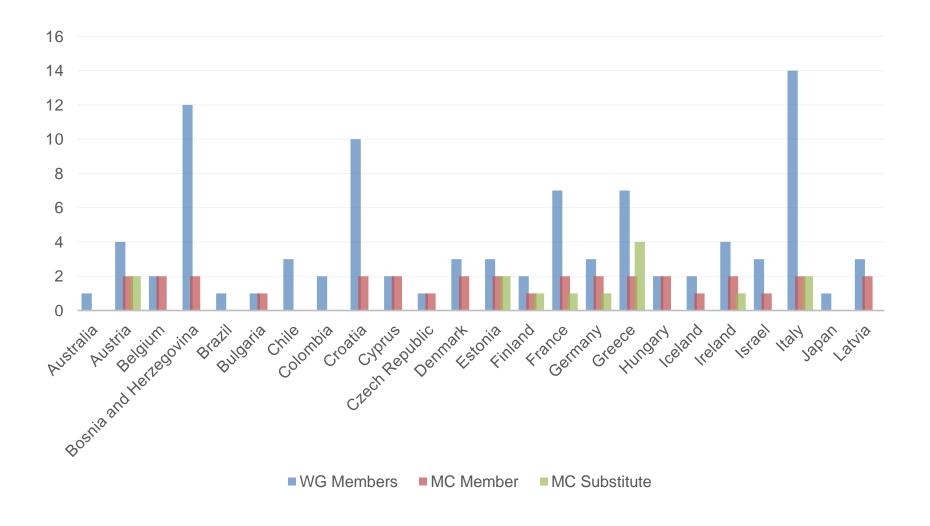

6. UPDATE FROM GRANT HOLDER

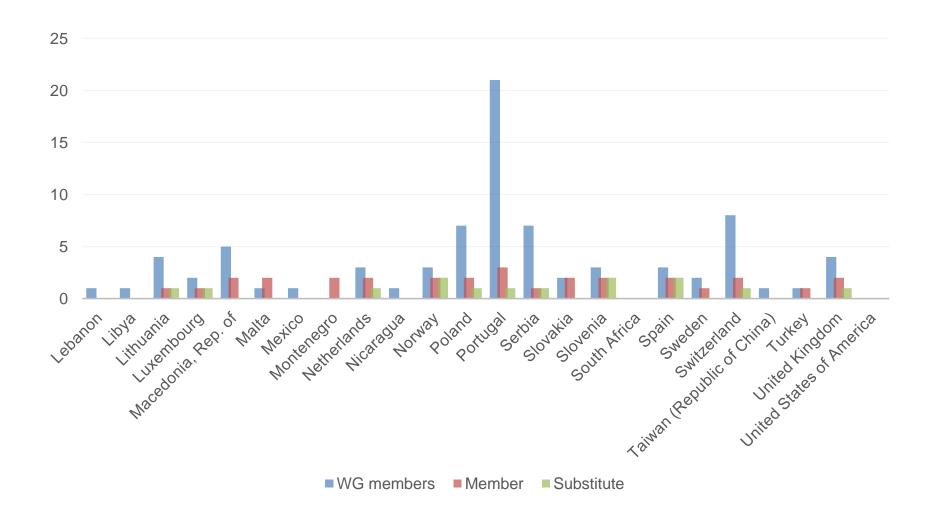

6. UPDATE FROM GRANT HOLDER

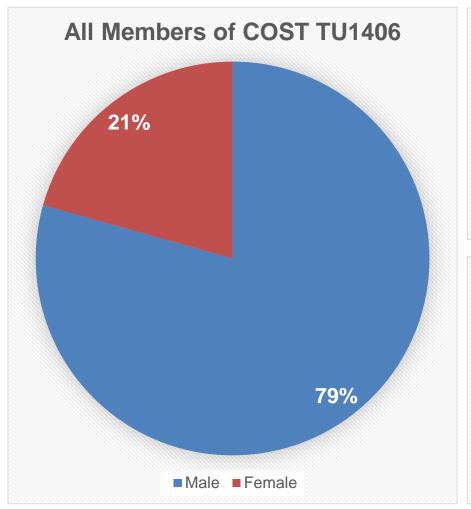

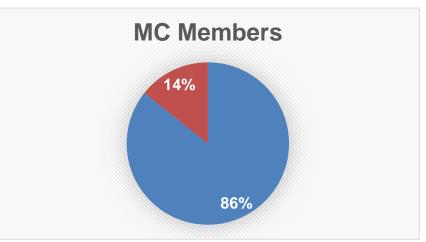

6. UPDATE FROM GRANT HOLDER

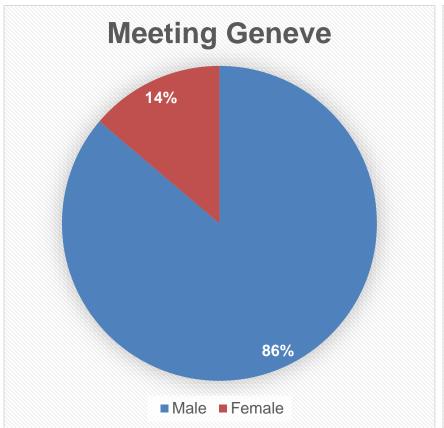

6. UPDATE FROM GRANT HOLDER

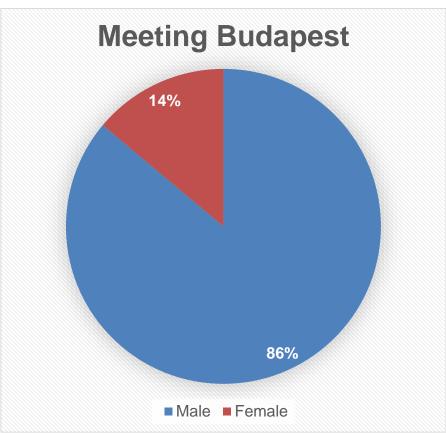

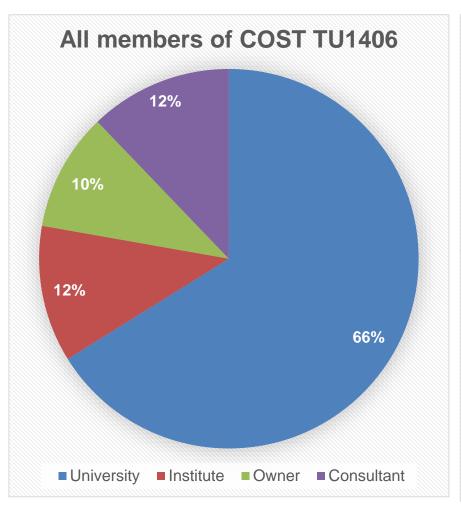

6. UPDATE FROM GRANT HOLDER

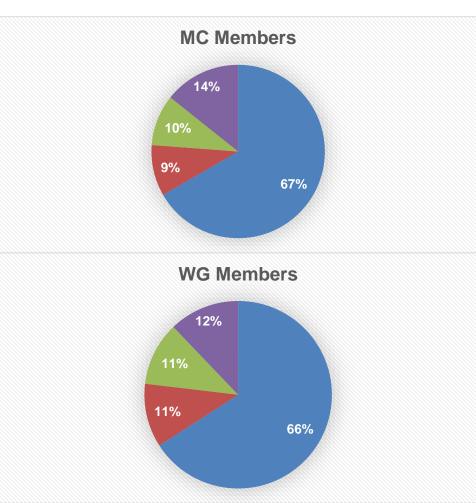

6. UPDATE FROM GRANT HOLDER

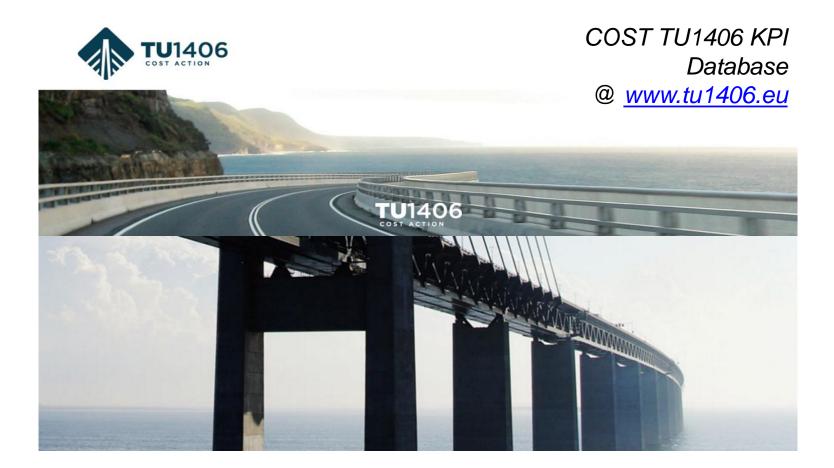

7. UPDATE FROM COST ASSOCIATION

 A cut of 20% was performed to COST TU 1406, which means that the overall budget for the 2nd Grant Period is of 141 000 EUR, instead of 170 000 EUR!

 The COST TU 1406 results will be evaluated remotely by the Rapporteur by the end of 2016. Therefore, the website should be updated with all reports and other material until then.

- It was decided to incorporate information from two document types:
 - Operator documents:
 - Actually in use by different Agencies in the form of guidelines or recommendations.
 - Research documents:
 - Showing the recent advances in the field by people from Academia and Research Institutes.
- The survey is structured in two important stages:
 - Screening:
 - Aims to upload the relevant parts of the document.
 - Glossary:
 - With the objective of collecting several terms definition.

- It was decided to nominate in each country several persons with different tasks:
 - Member of the Management Committee:
 - Responsible to contact owners and operators of roadway bridges asking for available documents in practice.
 - Country responsible person:
 - Screening and processing national operator documents.
 - *) The screening of research documents will be made by Researchers participating in different WGs.
 - Core Group among each WG members:
 - Preparation of tutorials for the screening of documents and analyze the database to obtain the main results and conclusions.

ADDENDUM TO CSS G

United Kingdom

<u>Goal</u>: Collecting the terms connected with key performance indicators and goals for roadway bridges across different participating countries.

COST ACTION TU1406

Performance ndicator	Peformance Threshold	Performance Goal	Performance Criteria	Performance Method	Begriff (Deutsch)	Term (English)	Source	Definition	Source	Keywords
Χ					Abnutzung	Wearout		Degradation of external coatings caused by chemical and/or physical processes.	[DIN 31051]	Building cons
	X				Abnutzungsgrenze	Wearout Limit		The accepted or specified minimum value of degradation levels.	[DIN 31051]	Building cons
					Abnutzungsprognose	Wearout Prognosis		Assessment of the service behavior of a Component (Unit), at the aim to predict future demand requirements on the basis of the known or assumed loads, starting from an actual state of the Component.	[DIN 31051]	Building cons
	Х	Х			Abnutzungsvorrat	Wearout Reserve		Stock of the possible function executions under specified conditions, of a unit due to the manufacture, repair or Inherent improvement .	[DIN 31051]	Building cons
					Abschnitt (ASB)	Section / Segment		As a section directed part of the road network is called, which lies between two consecutive nodes. It is limited by the conditions laid down in the network nodes.	[ASBNetzdaten]	Transportation Transportation
					Adaption	Adaption		In the art "adaptation" means the ability of a mechanical or electrical system, to respond intelligently and adapt (Adaptive Systems). The adaptation or updating of the status review of a component or structure (system), including any information obtained by a structure, is also referred to as adaptation. In a model adaptation (model updating) the unknown parameters of a model of this structure are calibrated so long until the static or dynamic behavior of the model corresponds to the actual measured on		Modeling

Abstract	An efficient evaluation and prediction of time variable mechanica fundamental requirement for life-cycle analysis as well as for the structures. Important tools and valuable support in these tasks an methods. Unfortunately, due to their practical feasibility and cost information gathered with inspection and monitoring methods ne possible. The aim of this contribution is to present a framework fundamental management in the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures prone to fatigue, wanter the preformance indicators of concrete structures and the preformance indicators of concrete structures and the preformance	e inspection s e inspection s ts they entail, eed to be use	sessment of concrete systems and monitoring their utility is limited. - WG1 will finalize their works at the end of the first Grant Period (WG1 Technical Report);
- The WG2 and WG3 will continue with their works, but in a more active way;
- WG5 will start to work in cooperation with WG1, using the developed data for standardization purposes;
- WG6 will run in parallel such as a subgroup.

Activity/Months	3	6	9	12	15	18	21	24	27	30	33	36	39	42	45	48
Milestone				M1				M2		МЗ				M4		M5

M1 - Report on performance indicators

- General description
- Assessment methods (e.g. visual inspection, non-destructive tests, monitoring systems, etc.)
- Frequency of assessment
- Obtained values
- General recommendations
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Workshop at the end of this task (Belgrade, Serbia)

M2 – Report on performance goals

- Description of technical, environmental, economic and social factors
- Goals computation methods
- Frequency assessment
- General recommendations
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Workshop/Training School at the end of this task

Activity/Months	3	6	9	12	15	18	21	24	27	30	33	36	39	42	45	48
Milestone				M1				M2		МЗ				M4		M5

M3 - Recommendations for the establishment of a QC plan

- Bayesian nets or other heuristic rules (used worldwide)
- Establishment of a procedure for the definition of QC plan for each individual bridge/component
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Workshop/Training School at the end of year 3

M4 – Preparation of a database from benchmarking

- Obtained results will validate the outcomes of WG1, WG2 and WG3
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Conference/Training School at the end of year 4

M5 - Guideline/recommendations

- Development of a new guideline for the establishment of QC plans
- Publication in refereed scientific journal papers (special issue) and in international conferences
- Conference/Training School at the end of this task

WG1 – Key Performance Indicators

Report in Key Performance Indicators, including Operators and Researchers KPI Database: **Predicted date - end of April 2016**.

WG2 – Performance Goals

Report in Performance Goals, including Operators and Researchers KPI Database: **Predicted date - end of April 2017**.

WG3 - Establishment of a QC Plan

Report in Incorporation of Key Performance Indicators in a QC Plan: **Predicted date - end of April 2017**.

WG5 - Drafting of a guideline / recommendations

Report in Standardization of Key Performance Indicators: **Predicted date - end of December 2016**.

9. SCIENTIFIC PLANNING Action Budget Planning

Description	Value
A – COST Networking Tools	
A.1 – Meetings	88.150,00 €
A.2 – Training Schools	19.650,00 €
A.3 – Short Term Scientific Missions (4xSTSM)	10.000,00€
A.4 – Dissemination	4.309,00 €
A.5 – OERSA	500,00€
B – Total Science Expenditure (sum A.1-A.5)	122.609,00 €
C - FSAC (máx. 15% of B)	18.391,00€
D – Total Expenditure (B + C)	141.000,00 €

9. SCIENTIFIC PLANNING Action Budget Planning

- Due to budget constraints COST Association highly recommends for big MC to only develop one MC meeting per year for the other Grant Periods. This was approved in the last MC meeting (MC meeting – 24, 36, 48 months);
- I reinforce that it is highly appreciated a strong coordination at nationwide level for: (i) WG contribution; (ii) MC contribution (inc. voting procedure);
- When possible, please develop a previous nationwide meeting w/ all involved in MC (member or substitute) to coordinate WG and MC activities;
- Eventually, in some occasions, you can nominate only one representative to attend the MC (that can be either MC member or substitute). In that case, previously inform the Chair of the Action and the Grant Holder (Ms. Lara Leite), within the time frame.

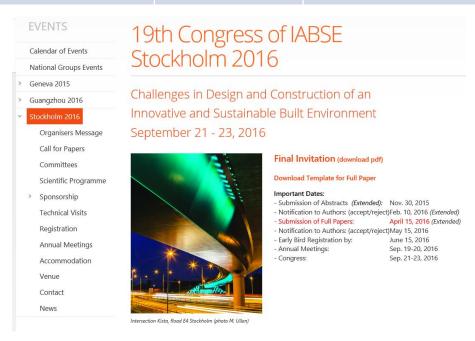

9. SCIENTIFIC PLANNING Action Budget Planning

- Meetings: (i) WG meeting + Workshop, TNO, Delft, the Netherlands, 20-21 October 2016 (LOS. I. Stipanovic and G. Klanker); (ii) WG & MC meeting + Joint COST TU 1402 / 1406 / IABSE Workshop, University Zagreb, Zagreb, 2-3 March 2017, Croatia (LOS. A. Mandic and A. Kindij); (iii) Core Group meeting, University of Cyprus, Nicosia, Cyprus, 24 March 2017 (LOS. S. Pantazopoulou and D. Charmpis); and (iv) Two dissemination meetings;
- <u>Training School</u>: To be developed in KTH, Stockholm, Sweden, from 12-16 March 2016 (17 March 2016, for technical visits). Grant of 700 EUR for 15 trainees from COST countries and reimbursement for 5 trainers;
- STSM: Predicted 4 STSMs, in WG2 and WG3 scope, with the first call for applications until the 31st May 2016 (second call for end Oct. 2016);
- <u>Dissemination</u>: (i) website maintenance; (ii) COST TU 1406 pins (100 pins); (iii) print more 100 brochures (MC members please ask Ms. Lara Leite for brochures); and (iv) print 100 technical reports w/ 50 pages from WG2.

Activity	Location	Date	LOS
Integrated Training School IABSE16 - www.iabse.org/stockholm2016/	KTH, Stockholm (SW)	12-16 Sep. 2016 (5D) Technical Visit – 17 Sep. 2016	Mohammed Safi

Activity	Location	Date	LOS
Integrated WG meeting + Workshop IALCCE16 - http://ialcce2016.org/	TNO, Delft	20-21 Oct. 2016	Irina Stipanovic
	(NL)	(2D)	Giel Klanker

Special Session of COST TU 1406

The WG meeting/Workshop will focus on technical and non-technical bridge performance requirements (WG2), followed by quality control plans (WG3). Therefore we would like to invite COST TU 1406 members to submit short papers related to the following topics: (i) Evaluation of bridge performance (threshold values, requirements, goals); (ii) Technical, sustainability and economic bridge performance; (iii) Lifecycle Assessment; and (iv) Inspection and Maintenance plans.

The proposed manuscripts should be developed with the COST TU 1406 template (provided at www.tu1406.eu) and with the length between 3 and 6 pages. Authors of selected excellent papers will be invited to do oral presentations of their work, being their travel expenditures reimbursed by COST (reimbursement is only applied for authors from COST Countries). The deadline for submission is 1st July 2016.

Activity	Location	Date	LOS
Joint COST TU1406 + 1402 + IABSE WC1 Workshop WG & MC meeting	Zagreb University, Zagreb (CR)	2-3 Mar. 2017 (2D)	Ana Mandic Alex Kindij

9. SCIENTIFIC PLANNING Dissemination Planning

Activity	Location	Date
Dissemination Meeting IABSE 2016 - www.iabse.org/Guangzhou2016/	Guangzhou (CH)	8-11 May 2016 (4D)

9. SCIENTIFIC PLANNING Dissemination Planning

Activity	Location	Date
Dissemination Meeting IABMAS16 - http://www.iabmas2016.org/	Foz do Iguaçu (BZ)	26-30 Jun. 2016 (5D)

Special Session of COST TU 1406

9. SCIENTIFIC PLANNING Dissemination Planning

- e-BOOK. The Workshop in Belgrade will be the second e-BOOK (with ISBN) of our Action, w/ authorized material;
- Journal. The best abstracts / posters / oral presentations, together with main results of WG1, will be invited to a special issue of an ISI Web of Knowledge international journal. The core group, together with WG1 leaders, is working in this issue;
- Other individual participations as dissemination meetings, special session / mini symposium organizations, published documents, etc., even not reimbursed, but related to COST TU 1406, are welcome. Please inform Ms. Lara Leite in order to be included in the technical report.

10. REQUESTS FROM NEW MEMBERS

COST countries

Romania. Some contacts were already established with Romania but, until now, no decision was taken. Any support on this issue is welcome.

NNC countries

We received some applications for WG members from NNC, and a representative of **Lebanon** was in Belgrade meeting.

11. NON-COST APPLICATIONS

IPC countries

We received several applications from International Partner Countries (IPC) for WG members. Namely, countries from Central and South America, and Asia. Missing more countries from North America and Africa. Any support on this issue is welcome.

Today we have with us a MC observer from Chile, representative from Central and South America, Dr. Matias Valenzuela, and a WG member from Chile, Dr. Raul Vasquez.

12. ANY OTHER BUSINESS (AOB)

13. LOCATION AND DATE OF NEXT MEETING

- The next MC meeting will take 1 hour and will be in Zagreb, Croatia, on the 02-03-2017 (afternoon). The workshop will run on the 02-03-2017 and 03-03-2017;
- More information regarding this meeting will be sent soon by email.

See you in Zagreb!

14. SUMMARY OF MC DECISIONS

- Adoption of Agenda;
- Approval of Last Meeting Minutes;
- Development of only one MC meeting / year for the next Grant Periods;
- Nationwide Coordination (when more than one MC is involved);
- Approval of WBP for the 2nd Grant Period.

15. CLOSING

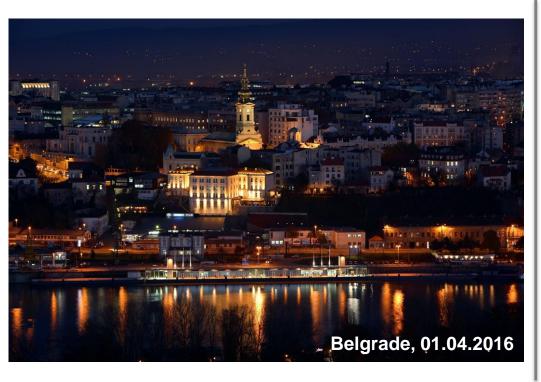

Thank you for the Support! Again, I kindly ask you to be active and answer the WG leader requests ... The success of this Action depends on you!

wish you a pleasant stay in Serbia ...

15. CLOSING
